Dear friends and enemies of Stilum Curiae, we receive and gladly publish the message that Archbishop Carlo Maria Viganò addressed to the participants of the Reawaken America Rally, which took place on the 2nd of April in Salem, Oregon. Enjoy reading.

REAWAKEN AMERICA RALLY Salem, Oregon, April 2nd, 2022

Praised be Jesus Christ. Dear friends, General Michael Flynn asked me to speak with a message for your rally. I gladly accepted his proposal, because I wish to greet you and encourage you in this re-awakening of consciences. If you are re-awakening, it is because until now someone has forced you to sleep, drugged you, and distracted you from what he was plotting, in order to continue undisturbed in his criminal action. But the slumber of Americans and all peoples has lasted far too long: it is now the moment to open our eyes, to wake up, and to understand what has happened and what is happening. It is the moment to act.

The threat of a third world war is weighing on all of us. They have told us that President Putin invaded Ukraine to support his expansionist ambitions, but in reality the main purpose of Russia's military operation is to prevent the aggression of the deep state and NATO. Putin is fighting against the same globalist elite that holds us all hostage. On March 6, the Russian Ambassador to the UN denounced what you have been advocating for two years: he declared that Donald Trump is the legitimate President of the United States, and that the election was falsified, with the complicity of European nations, using the Dominion apparatus. And we know that, in order to advance the agenda of the Great Reset, it was necessary to get rid of Trump, who would never have allowed either the pandemic farce or the escalation of the Russian-Ukrainian crisis.

This is not a war of the Ukrainian people. It is not the Ukrainian people who are persecuting their Russian brothers, but a puppet government supported by neo-Nazi military militias. A corrupt government, desired by the globalist cabal, which today finds itself with a cocaine-addicted President, a former actor and dancer who hides billions in tax havens while the Ukrainian population is among the poorest in Europe.

It is not a war of the Russian people. For years the Russian Federation has been demanding respect for the Russian-speaking minority, and the international community has always turned the other way.

It is not a war of the European nations. It is the leaders of the European Union who want a conflict in order to justify implementing the Great Reset and imposing a dictatorial regime made up of limitations on freedom, an impoverishment of the population, the elimination of small businesses, the imposition of an inhuman and technocratic model of life, and the cancellation of the identity of nations, their history and their religion.

It is not a war of the United States. The Americans fought against Nazism, and it is scandalous that today Biden is helping a government that supports and collaborates with extremist groups that hoist the swastika and propagate Nazi ideas. It is the deep state, with its servants now infiltrated into all institutions, that wants war in order to extend its dominion over the whole world under the pretext of "exporting democracy," while in reality it is thinking only of selling weapons, enriching itself, and appropriating the resources of the invaded countries, sowing destruction and death.

We should not be surprised to learn that on January 6, 2021, at the Capitol in Washington there were members of the Azov Battalion present. The enemies of the State have no qualms about allying themselves with war criminals so as to blame their political opponent and accuse President Trump of insurrection. This fact alone should be enough to understand their subversive project and their intention to stop at nothing to achieve it.

Behind this war there is the desire to destroy the international balance, to force European nations to impose sanctions on Russia that mainly affect Europe, in perfect harmony with the aims of the Great Reset. The destruction of the economy of the nations that depend on Russian gas and raw materials intends to force them to supply themselves from the USA (in quantities much lower than their needs and at a much higher price), but above all it intends to subject them and enslave them, as the Undersecretary of State for Political Affairs Victoria Nuland admitted some time ago.

Let us have no illusions: these servants of the New World Order who have managed to occupy the highest positions of national governments and international organizations are our enemies: enemies of the good and enemies of God. They do not care how many of us will have to die from the effects of the vaccine, from hunger or from bombs: they are only interested in power, personal advantage and the advantage of their masters, whom so far no one has dared to incriminate and condemn.

This war is being driven by the pressing need of the Biden family to cover up the colossal conspiracy and the very serious crimes that Joe and Hunter have stained their hands with, along with their accomplices. The news of their involvement in the presence of American biolaboratories in Ukrainian territory co-financed by Soros, in the activity of Burisma, in the money ring of Obama and the Clintons, confirm an enormous, scandalous conflict of interest that in itself ought to make us ask: in whose name does Joe Biden speak? Does he speak for the defense of the interests of the United States, or to hide the crimes he and his son committed? Does he speak as President of the United States or as a puppet in the hands of the deep state and the globalist cabal?

This is a war: yes, a war that began some time ago, remained underground and became evident with the pandemic. It is a war of the elite against the whole of humanity. It is an undeclared war, but one that has already claimed millions of victims as a result of denied treatments and forced vaccines more than by weapons. It is a war of the New World Order against you, against us, against our children, our values, and our future. It is a war of darkness against light. *Lux in tenebris lucet, et tenebræ eam non comprehenderunt*. The light shines in the darkness, and the darkness did not comprehend it, as Saint John tells us in the Gospel (Jn 1:5). Because darkness hates light. The light is truth; it is clarity; it is honesty. The light is Christ. The darkness is lies; it is deception; it is conspiracy. The darkness is Satan's kingdom.

What is Russia asking of Ukraine? To recognize the independence of Crimea, to guarantee the rights of Donetsk and Lugansk, to repress neo-Nazi movements, and to remain neutral. These are things that the UN should demand first. And Zelensky himself, under pressure from Putin's military forces, has said that he is willing to negotiate peace conditions. But Biden does not want this, and he is forcing Zelensky to resist, pushing the nations of Europe forward in sending weapons and troops, and threatening – in a mad delirium – preventive intervention with nuclear weapons.

This conflict should never have begun, if peace had really been desired. But as Joe Biden admitted a few days ago, war “is an opportunity,” as was the pandemic. And while they calmly tell us that we will soon have to face a food emergency, their accomplices are preparing to profit from the sale of wheat and agricultural products, after having spent the last few years taking possession of millions of acres of cultivable land. What are the magistrates waiting for in order to recognize a *coup d'état* in these criminal speculations? How much longer will they leave those who should be defending national interests and promoting the good of their citizens free to serve their own interests?

You may be wondering why a Bishop is speaking with words you would expect to hear from a politician. Perhaps it is because the politicians are almost all servants of the system, sold out to the globalist cabal, paid by BigPharma, Soros or the deep state. Only a few – and you all know who those few are, and some are here today – have had the courage to denounce this worldwide coup, oppose the mainstream narrative, and raise their voices against the violation of the fundamental rights and constitutional freedoms of citizens.

Allow me to speak to you as a Bishop. I first denounced it two years ago, but now the ferocious and violent assault of these conspirators is so obvious that they are no longer even hiding. It is an attack by the elite that has as its purpose the destruction of everything that is part of our identity, of our culture, and of our Faith. It is an infernal elite, who desire death and hate life; who desire disease and hate health; who hate peace and desire war; an elite that it is based on lies and detests truth; an elite who want slavery and tyranny and hate the freedom of God's children. It is an elite that hates God, hates Our Lord Jesus Christ, and has devoted itself to the service of Satan.

If you really want to wake up, if the *great awakening* is what inspires your protest, you must have the courage to look reality in the face, to understand that if these traitors have managed to come to power and today can decide the fate of individual nations and the whole world, it is because we have not reacted from the beginning against the first signs of their plans.

We have tolerated the destruction of the family, we have endured the placing of the true God on an equal footing with idols, we have allowed billions of innocent people to be killed by abortion, we have allowed our children to be corrupted with immorality, pornography, the corruption of gender theory and LGBT ideology. We have allowed our rulers to use freedom not to serve God and the common good but to worship Satan and spread sin and vice. We have believed that if we left others free to act against the natural and divine law, they would in turn leave us free to be honest and good citizens. We fell into a huge deception, because our tolerance towards evil has today necessarily developed into society's intolerance for the good.

The time has come to act. We must really all wake up, get on our feet, and demand that those who govern us be honest, think of the common good, and obey only God and those who elected them to help citizens live honestly, instead of seeing ourselves more humiliated each day, treated like slaves and forced to witness the destruction of everything that our fathers have laboriously built.

The time has come to denounce the corrupt and the traitors, to expel those who do not serve the people but the deep state or the New World Order. Because none of us wants that New World Order, only the few who think they can still terrorize us with the pandemic, with the threat of a nuclear war, with the impoverishment of nations, and with the imposition of absurd rules that no one has ever wanted or approved.

The time has come not only to stand up but also to get on our knees: not the way *Black Lives Matter* does, but as every good Christian does before the Majesty of God. On our knees, with the Holy Rosary in our hands, praying to the Lord to forgive our sins and the public sins of nations, imploring Him to have mercy on us and promising Him that we first – all of us – commit ourselves to live as good Christians, as patriots, as honest citizens, as responsible fathers and mothers of families, as obedient children, as valiant soldiers.

The time has come to establish an Anti-Globalist Alliance, a worldwide civil movement that gives voice to the majority of citizens, denouncing the coup that is now in progress, revealing the connivances of the powerful, the conflicts of interest of the lobbies, and the lies of the mainstream media. This Alliance must have its own clear and common purpose that refutes the agenda of globalism and opposes it with a concrete proposal, in conformity with the Natural Law, the common good, and good governance. A proposal that promotes harmony among nations and peaceful coexistence among sovereign peoples, whose right to live in their own homelands must be recognized, as well as their right to build their own future and well-being without exploiting others and without being exploited. A proposal that gives centrality to sovereignty of nations, to the protection of religion, culture and traditions, to the defense of life and the family. A proposal that definitively breaks the odious chains of the dictatorship of ideologies that in recent decades have been imposed on us only to destroy us in soul and body.

Dear friends, may you who recognize the United States of America as *One Nation under God* have the courage and coherence to oppose with all your strength the conspirators who have infiltrated the posts of government, all the corrupt people who are willing to provoke a world conflict in order to obey their masters, and all the traitors who want to subject humanity to Satan's hateful tyranny.

Awake, dear Americans! Awake and put on the armor of light, as Saint Paul says. Do not be afraid to give courageous witness to your faith, your love for your homeland, your legitimate desire for honesty and goodness, for truth and beauty. If you know how to side with Christ, His certain victory will also be yours.

May God bless you all. May God bless and inspire your reawakening with holy purposes. And may God bless the United States of America.
