

Go to the TRUE DOCTOR – JESUS CHRIST

Below Luisa tells Aunt Rosaria to go to the TRUE DOCTOR. From Fr. Bucci's book *A Collection of Memories of the Servant of God to Aunt Rosaria, faithful custodian of the life of The Servant of God, Luisa Piccarreta*.

Padre Bucci wrote: My aunt, urged by my mother, consulted a dermatologist in Bari. The diagnosis was terrible: "Dear lady", the doctor said to her. "these are cancerous sores which will spread increasingly over your whole body. You have a form of leprosy, a very rare disease". Just imagine my aunt's state of mind on hearing these words. After wandering about in Bari for several hours, in the evening she returned to Luisa's house. Aunt Rosaria gave vent to her feelings with the Servant of God and said to her with irritation: "I'm with you all the time, and yet do you allow certain things? I have no children to take care of me.". Luisa let her speak and then said to her, "*Rosaria, Rosaria... you have gone round all these doctors and you have neglected the one true doctor*". On hearing these words, my aunt immediately took all the medicines, gauze and cotton wool, and flung them away, from the balcony (this happened in the house in the Via Maddalena, where they then lived). Then she said: "*I now entrust myself to Our Lord and to your prayers*". Before she went to bed, Luisa called her, made her kneel beside her bed and together they spent a long time praying. My aunt then went to bed. She slept in a double bed beside Angelina. That night, Aunt Rosaria felt her body flooded with a sense of well-being. When she rose the next morning, she found that all her sores had dried up; they were covered only by thin scabs which came off during the day: she was perfectly cured. Rumors of the miracle spread, but no one dared to speak of it openly although everyone knew that Luisa had had a hand in it. The reason for this was that Luisa did not want these phenomena to be attributed to her. "*I cannot work miracles, it is Our Lord who does them*", she asserted. This is why no extraordinary episode that occurred through her intervention was made public; all the same, news of such matters spread in silence.

Daily Command Prayer for Healing

Go to the TRUE DOCTOR
~ JESUS CHRIST

Abba Father,
In the Name of Jesus
in Union with Power and Love of the Holy Spirit,
under the Mantle of Mary, Our Mother and Queen,
with all the Angels and Saints
and through the intercession of The Servant of God
Luisa Piccarreta and little Rosaria Bucci,

Dearest Jesus, we have been searching in vain
for cures and remedies for all illnesses.
We have neglected to ask You, the Great Physician,
for Divine Healing.

We daily listen to Your teachings and directions
from Luisa Piccarreta
and we humbly come before you
begging Forgiveness and Clemency
for not Trusting in You completely.

We entrust ourselves to You, O Jesus,
in the name of everyone and everything
past, present and future for Your Divine Healing
as You O God have promised.

So, we now ask You O Jesus for Your Divine Healing!

Your Divine Healing
that You so abundantly want to pour upon us,
Your little children of the Divine Will.

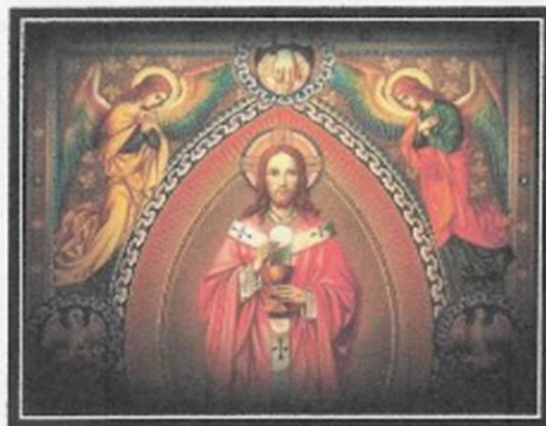

**Depart cancer and all illnesses
of body, mind and soul
in the Name of Jesus!**

Fill now that void with
The Powerful Divine Healing of Jesus,
Our Lord, Master, and King!

On our knees we humbly and graciously,
Thank You Almighty God for Your Divine Healing!

Please take this, our little prayer,
and make it Your Command,
that all may be Accomplished and Completed
in Your Most Holy Divine Will.

**We Believe,
We Receive.**

**So be it!
Fiat!
Amen.**
